12 June 2003

Dear Sirs

Patents Act 1977:
Combined Search and Examination Report under Sections 17 and 18(3)

Latest date for reply: 21 July 2003

I enclose two copies of my search and examination report and a copy of the citations.

By the above date you should either file amendments to meet the objections in the report or make observations on them. If you do not, the application may be refused.

Publication

I estimate that, provided you have met all formal requirements, preparations for publication of your application will be completed soon after 15 July 2003. You will then receive a letter informing you of completion and telling you the publication number and date of publication.

Amendment/withdrawal

If you wish to file amended claims for inclusion with the published application, or to withdraw the application to prevent publication, you must do so before the preparations for publication are completed. No reminder will be issued. If you write to the Office less than 3 weeks before the above completion date, please mark your letter prominently: "URGENT - PUBLICATION IMMINENT".

[†]Use of E-mail: Please note that e-mail should be used for correspondence only.

Application No: GB 0310757.0

12 June 2003

You should also note that the normal, unextended period allowed for complying fully with the requirements of the Act will end on 28 August 2003. However, if you need extra time to settle any remaining objections you are entitled to extend that period by one month by filing Patents Form 52/77 and fee.

Yours faithfully

D.B. Pepper
Examiner

Patents Act 1977

Combined Search and Examination Report under Sections 17 & 18(3)

Basis of the examination

1. My examination has taken account of the amendments filed with your agent's letter of 28 May 2003.

Allowance of the divisional date

2. Your request that this application be treated as having been filed on 23 February 2000, which is the same date of filing as your earlier application number GB 0004285.3, has been allowed.

Novelty

3. The invention as defined in claims 1 and 2 is not new because it has already been disclosed in each of the following documents:

WO 99/35368 A* (Shell Int Research) - see page 6, lines 11-17

WO 99/06670 A (Shell Int Research) - see page 5, line 32 to page 6, line 14

No amendment of your claims will be needed in respect of the document marked * if you can show that the priority date of your invention is not later than the priority date of the relevant disclosure in that document.

Both documents disclose the placement of cement in the annulus between the tube and the borehole wall, presumably by injection into the casing below the expansion cone, followed by injection of fluid above the expansion cone to move the latter downwardly to expand the tube.

Clarity and consistency

4. Inconsistencies between claims 1 and 2, the title and the description on pages 2-7, 10, 11 and 78-88 should be removed. Also the detailed description should be amended to clearly indicate which figures lie within the scope of the invention.

Your ref: HL74401/001/ASG
Application No: GB 0310757.0

Date of Report: 12 June 2003

[Examination Report contd.]

Non-metric units

5. As agreed in a telephone conversation with your agent, a single equivalent metric value for each of the repeating non-metric values mentioned throughout your specification may be included at the start of the detailed description rather than alongside each of the non-metric values.

Other

6. The US patent application serial numbers should be inserted in the specification on pages 13-16,39,40,43,70 and 71.

Publication

7. Publication of this application is proceeding concurrently.
